

Year Two Weekly Summary

Week beginning 15th May 2018

This week the girls and boys will be starting their SATs. They have been well prepared and have worked very hard. The activities will feel no different to the work they have been doing to prepare for the assessments and they should not worry about them as we know that they will do their best. Some fun, relaxing activities after school and early nights will help them during this period.

- In literacy this week we will be revisiting reading comprehensions tasks, spelling, grammar and punctuation and taking our assessment papers.
- In maths we will be focusing on arithmetic skills, partitioning to add 2-digit numbers and using a number line to subtract. We will rehearse our multiplication tables from 2, 3, 5, 10 and 11 and apply our mathematical learning to both arithmetic and reasoning assessments.
- In science this week we will explore some of other investigation work from Science Week.
- In history we will be continuing our learning of how transport has changed throughout time.
- In R.E this week we will continue our 'Eastertide' topic by learning about Our Lord's appearance to Thomas and the other apostles. We will also say a decade of the rosary to think about Our Lady in the month of May.
- In music this week we will continue to work on some of the pieces we have learnt.
- In P.E this week we will be practicing our team game skills and athletics for Sports Day.
- In computing this week we will use Scratch App. on the iPad and create a short animation with Sound.

Ways to help your child:

- Listen to them read every night and help them when they come to write a review of what they have read. Ask questions about the characters and setting to check their understanding of content, and you could point to words randomly on the pages if you think they are guessing. Point out vocabulary that is commonly used and may feature on their spelling list this week.
- Practise their spelling list with them. The dictation activities will be done in class on Thursday this week. Please also remind them to use capital letters and full stops whenever they write sentences.
- Practise the 2, 3, 5, 10 and 11 times table.
- Enjoy some gentle relaxing activities after school, read your child a bedtime story and encourage early nights.

Best wishes,

Mrs Egbunu and Mrs Agnew
